

Best Presentation Award (Sponsored by GC SHOWAYAKUHI)

- O1-01 Volatile anesthetic effects on unitary inhibitory postsynaptic currents in the rat cerebral cortex**
YUKO KOYANAGI
Department of Anesthesiology, Nihon University School of Dentistry
- O1-02 Preventive effect of clonidine on cerebral neurological disorder after sevoflurane anesthesia in infant mouse : relation to expression levels of IL-6**
YOKO OKUMURA
Department of Anesthesiology, School of Dentistry, Aichi Gakuin University
- O1-03 New identification of cerebellar Lobule IX Purkinje cells that regulate general anaesthesia induction**
NOZOMI UTSUMI
Department of Dental Anesthesiology, Graduate School of Medical and Dental Sciences, Institute of Science Tokyo
- O1-04 The role of CD8 T cell-derived IFN- γ in the trigeminal ganglion following infraorbital nerve injury in a rat model**
MOMOYO KOBAYASHI
Department of Oral Medicine, Nihon University School of Dentistry
- O1-05 Effects of HCN channel inhibitors on intracellular Ca²⁺ level in microglia**
JOTARO TANAKA
Dental Anesthesiology and Special Care Dentistry, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences
- O1-06 Regeneration of Injured Salivary Glands through the Transplantation of Salivary Gland Cell Sheets Derived from Human Induced Pluripotent Stem Cells**
ERIKA MATSUNO
Division of Anesthesiology, Department of Perioperative Medicine, Showa Medical University Graduate School of Dentistry
- O2-01 Development of an AI-Based System for Selecting General Anesthetics—General Anesth Classifier—**
MANAMI YAJIMA
Department of Dental Anesthesiology, School of Dental Medicine, Tsurumi University, Yokohama, Japan
- O2-02 A Novel Method Combining Ultrasound-Guided Glossopharyngeal Nerve Block and Desensitization for Severe Gag Reflex**
YUHEI UBUKATA
Department of Dental Anesthesiology, Showa Medical University Northern Yokohama Hospital

- O2-03 Assessment of autonomic function for patients with glossodynia—A new method using electronic pupillometer—**
ICHIRO OKAYASU
Osaka Dental University, Department of Dental Anesthesiology
- O2-04 Evaluation of the validity of preoperative oral intake restriction time in general anesthesia and intravenous sedation using magnetic resonance imaging (MRI)**
RIE HAYASHI
Department of Dental Anesthesiology, Division of Oral Pathogenesis and Disease Control, Asahi University School of Dentistry, Gifu, Japan
- O2-05 AI Acoustic Assessment of Aspiration Risk : Cervical vs. Thoracic Monitoring**
SANA ITO
Faculty of Dentistry, Hiroshima University
- O2-06 Effects of gender on Emergence from General Anesthesia with remimazolam**
RIKO SATO
Department of Dental Anesthesiology and Special Care Dentistry, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences

Poster Presentation

- DH1-01 Investigation of medical incident reports related to dental visits in our dental clinic**
 AYAKA TATEISHI
 Medical Corporation Syuwakai Kokura Kita Dental Clinic, Kitakyusyu, Japan
- DH1-02 Investigation about the oral status at the time of the first medical examination in the case that received general anesthesia lower dental treatment frequently**
 MIGIWA INATOMI
 Medical Corporation Syuwaki Dental Clinic in Mizumaki
- DH1-03 The actual situation of the general anesthesia for the past 13 years and intravenous sedation method in our hospital**
 MIYUU TAKARAGI
 Medical Corporation Syuwaki Dental Clinic in Mizumaki
- DH1-04 A survey on risk assessment of postoperative vomiting in children with disabilities**
 MANAMI NAKAGAWA
 Oral and Maxillofacial Surgery, National Hospital Organization Shikoku Medical Center for Children and Adults
- DH1-05 Blood Pressure Changes during Local Anesthesia in Patients with White Coat Effect**
 MIO NAKAJIMA
 Department of Oral Hygiene Maintenance, Kanagawa Dental University
- DH1-06 Investigation of Anxiety Factors of Paradental Staff for Dental Treatment under General Anesthesia in Dentistry for Persons with Disabilities**
 MIYUKI IWATA
 Medical Corporation Syuwakai Kokura Kita Dental Clinic, Kitakyusyu, Japan
- DH2-01 Development of a Multidimensional Evaluation Model for Dental Anxiety**
 NANA AKAGI
 Department of Oral Hygiene Maintenance, Kanagawa Dental University
- DH2-02 Effectiveness of practical training for enhancing emergency response capabilities in dental practice**
 IZUKA HAYASHI
 Department of Dentistry, Morinomiya Hospital, Osaka, Japan
- DH2-03 Periodontal Surgery Performed Under Intravenous Sedation in a Hypertensive Patient : The role of a dental hygienist**
 KOZUE MATSUSHIMA
 Arie Furuse Dental Oral Surgery Clinic

- DH2-04 A questionnaire survey of dental hygienists regarding dental anesthesia services**
KAZUYO TORAMI
Nihon University Hospital School Dentistry at Matsudo
- DH2-05 Reservation management for general anesthesia and intravenous sedation at the Oral Health Center of Kagoshima Association**
CHIGUSA IWAMOTO
Oral Health Center of Kagoshima Association
- P1-1-01 Analysis between TRPV1 sensitivity and SNPs in human genome**
KAORU TOMOMATSU
Department of Oral and Maxillofacial Biology, Matsumoto Dental University Graduate School
- P1-1-02 Cerebroprotective effects of lidocaine in models of transient and permanent cerebral ischemia**
TOSHIKO YANASE
Department of Anesthesiology, Osaka Dental University
- P1-1-03 Effects of electrical destruction of the Gi in the suppression induced by stimulation of the PTg on the swallowing reflex**
YUI AKIHO
The Nippon Dental University Graduate School of Life Dentistry at Niigata
- P1-1-04 Investigation of the relief of neuropathic pain by oxytocin**
MAYUKA UEDA
Department of Dental Anesthesiology, Osaka University Graduate School of Dentistry
- P1-1-05 Investigation of the Involvement of Axon Guidance Factors in the Mechanisms of Neuropathic Pain Onset in the Orofacial Region**
HIROAKI SHIGEMASA
Department of Dental Anesthesiology, Graduate School of Dentistry, Osaka University
- P1-1-06 Effects of Phenol derivatives on trigeminal ganglion neurons**
KAZUYA HASUNUMA
Department of Dental Anesthesiology, Tokyo Dental College
- P1-2-01 Functional Characterization of the Long Non-Coding RNA H19 Upregulated in Schwann Cells in a Neuropathic Pain Model**
MIKI YOKOYAMA
Tokyo Science University
- P1-2-02 Sex Differences in Lysophosphatidic Acid (LPA) Involvement in the Trigeminal Ganglion in Neuropathic Pain of the Orofacial Region**
RYOKO KURISU
Institute of Science Tokyo University Hospital Orofacial Pain Clinic

- P1-2-03 Omecamtiv mecarbil does not affect smooth muscle myosin phosphatase target subunit 1 phosphorylation and hemodynamics in the rat**
MARINA TAKATA
Department of Dental Anesthesiology, Tokushima University Hospital
- P1-2-04 Investigation of the Effects of General Anesthetics on Lipid Raft Domains in Living Cells Using Bioimaging**
YURI HASE
Dental Anesthesiology, Department of Oral Pathobiological Science, Faculty of Dental Medicine, Hokkaido University
- P1-2-05 Development of a Sedation-Evaluation-System Using an Intravenous Mouse Model and Analysis of the Anesthetic Effects of Remimazolam**
AOI IKUSE (OSHIO)
Division of Anesthesiology, Department of Perioperative Medicine, Showa Medical University Graduate School of Dentistry
- P1-2-06 Lenvatinib inhibits AGEs-induced COX2 expression in Ca9-22 cells**
HIDEAKI SEKI
Department of Anesthesiology, Nihon University School of Dentistry
- P1-3-01 Pathophysiological Effects of *Streptococcus oralis* on Bladder Inflammation in Gnotobiotic Mice**
KOTA IIOKA
Division of Anesthesiology, Department of Perioperative Medicine, Showa Medical University Graduate School of Dentistry
- P1-3-02 Exploring the Role of Transmembrane 135 in Salivary Secretion**
KOTA MIYAKE
Department of Dental Anesthesiology and Special Care Dentistry, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences
- P1-3-03 Effects of pravastatin on inflammatory responses induced by lipopolysaccharide from *Porphyromonas gingivalis* in human coronary artery endothelial cells**
KAZUMI TAKAISHI
Department of Dental Anesthesiology, Tokushima University Graduate School of Biomedical Sciences
- P1-3-04 Variation in oxygenation reserve index during induction of general anesthesia using High-Flow Nasal Oxygen**
AYAKO TSUJI
Department of Dental Anesthesiology, Science, Nihon University School of Dentistry at Matsudo
- P1-3-05 Changes in Salivary Secretion during the Induction of General Anesthesia : A Comparative Study of Remimazolam and Propofol**
SHOTA TSUKIMOTO
Nagasaki University, Dental Anesthesiology

- P1-3-06 Evaluation of the pain-reducing effect using an eutectic mixture of lidocaine and prilocaine patch formulation in venipuncture : A randomized crossover study**
KAKO SUGIHARA
Department of Dental Anesthesiology, Division of Oral Pathogenesis and Disease Control, Asahi University School of Dentistry
- P1-4-01 Emergence delirium in children undergoing dental treatment : a comparison of sevoflurane and desflurane**
SHOICHI HONMA
Department of Dental Anesthesiology and Perioperative Management, Hinode Makomanai Dental Hospital
- P1-4-02 Postoperative Sore Throat Following Blind Nasal Intubation : A Retrospective Study**
AKIHIRO KUROZUMI
Dental Anesthesiology, Social Medical Corporation Keiyukai Sapporo Hospital
- P1-4-03 Effect of Flumazenil on Postoperative Nausea and Vomiting After Remimazolam Anesthesia in Orthognathic Surgery**
RIE KATO
Tokyo Dental College Dental Anesthesiology
- P1-4-04 Incidence of Postoperative Nausea and Vomiting After General Anesthesia with Remimazolam : A Retrospective Study**
TOMOMI KATAYAMA
Kanagawa Dental University Hospital, Dental Anesthesiology
- P1-4-05 Survey results on the current state of sedation education at dental schools**
KENJI SEO
Medical Safety Committee of JDSA
- P1-4-06 Assessment of post-extubation swallowing function after general anesthesia**
CHIIHIRO KUTSUMIZU
Department of Dental Anesthesiology, Graduate School of Medical and Dental Sciences, Institute of Science Tokyo
- P1-5-01 Evaluation of two dosages of oral midazolam as sedation regimens for children**
SAORI YAMAMOTO
Itoh Dento-Maxilofacial Hospital
- P1-5-02 Retrospective study about the hemodynamic changes under the midazolam-dexmedetomidine intravenous sedation with or without initial loading dose**
HIROKAZU NAKAMURA
Wakashima Dental Clinic, Saitama, Japan

- P1-5-03 A Survey of Patient Satisfaction with Intravenous Sedation for Invasive Dental Procedures**
AKIRA HARA
Department of Dental Anesthesiology, Showa Medical University Koto Toyosu Hospital
- P1-5-04 Evaluation of Stress Responses to Different Color Stimuli—A Comparative Study Using Salivary Alpha-Amylase and Visual Analogue Scale in Dental Phobia Patients—**
YUKIHIKO TAKEMURA
Department of Restorative Dentistry Kanagawa Dental University
- P1-5-05 Two Cases Where Multi-Drug Intravenous Sedation Reduced Body Movement**
SHINJI TOMINAGA
Himawari Dental Clinic, Yusenkai Medical Corporation, Hiroshima, Japan
- P1-5-06 Development of a common in-hospital manual and department-specific manuals for sedation during procedures**
HIROKI TAMURA
Gunma University Hospital Oral and Maxillofacial Surgery
- P1-6-01 Advantage of ultrasound-guided approach in stellate ganglion block**
MADOKA NAGAURA
Department of Oral and Maxillofacial Radiology, School of Life Dentistry at Tokyo, The Nippon Dental University
- P1-6-02 The rs1992116 single nucleotide polymorphism of LPCAT2, an enzyme involved in PAF biosynthesis, is associated with dysesthesia and hypoesthesia**
MAYUKO HAYASHI
Tokyo Dental College
- P1-6-03 A case of temporomandibular joint disorder treated with trigger point injection instead of SGB due to difficulty in touching the common carotid artery**
KENZO MIZUMA
Department of Anesthesiology, Affiliated Hospital, Iwate Medical University, Morioka, Japan
- P1-6-04 Clinical Aggregation of Kanagawa Dental College Dental Hospital Orofacial Pain Relief Center for The Past 7 Years**
ATSUKI YAMAGUCHI
Department of Dental Anesthesiology, Kanagawa Dental University, Yokosuka, Japan
- P1-6-05 Comparison of central sensitization and psychological aspects between the acute and chronic phases in patients with iatrogenic trigeminal neuropathy**
YUICHIRO OHTA
Division of Special Needs Dentistry and Orofacial Pain, Department of Oral Health and Clinical Science, Tokyo Dental College

- P1-6-06 Long-term Outcomes of Masticatory Muscle Pain Treatment in a High-Risk Group for Somatic Symptom Disorder**
TOMOYASU NOGUCHI
Tokyo Dental College
- P1-7-01 Intranasal Midazolam for Premedication in Adults with Intellectual Disabilities**
KANA OUE
Department of Dental Anesthesiology, Hiroshima University Hospital
- P1-7-02 Retrospective study on anesthesia-related adverse events in cleft lip and palate surgery among children with syndromes or chromosomal abnormalities**
YAYOI MORITA
Osaka Woman's and Children's Hospital
- P1-7-03 Hemodynamic Effects of Ultrasound-Guided Trigeminal Nerve Block in Bimaxillary Orthognathic Surgery**
AKI KAWAUCHI
Department of Dental Anesthesiology, Graduate School of Medical and Dental Science, Institute of Science Tokyo
- P1-7-04 Effectiveness of preventive intervention for intraoperative acquired pressure injury during general anesthesia in dental procedure : a retrospective cohort study**
DAISUKE OIWA
Department of Dental Anesthesiology and Perioperative Management, Hinode Dental Makomanai Hospital
- P1-7-05 Circulatory management using advanced hemodynamic monitoring in oral cancer free flap reconstruction**
YOKO SASAKI
Saitama Rehabilitation Center
- P1-7-06 Efficacy of β 1 blocker in blood pressure control cases**
HIROTAKA SUZUKI
Department of Anesthesiology, National Hospital Organization Sendai Medical Center
- P1-8-01 Questionnaire Survey on Basic Life Support Training for Dental Students**
SHUSEI YOSHIMINE
Department of Dental Anesthesiology, Field of Oral and Maxillofacial Rehabilitation, Graduate School of Medical and Dental Sciences, Kagoshima University
- P1-8-02 Investigation of Cuff Pressures and Capacities of Endotracheal Tubes : Second Report**
YUKA KANO
Department of Anesthesiology Osaka Dental University

- P1-8-03 A clinical study of on the use of HFNO in Dental Treatment under Intravenous Sedation**
TAKAHIRO SASAKI
Department of Anesthesiology, Nihon University School of Dentistry at Matsudo
- P1-8-04 Assessment of respiratory ventilation using Respiratory Inductive Plethysmography**
FUMI KOZU
The University of Osaka, Graduate School of Dentistry, Department of Dental Anesthesiology
- P1-8-05 Study of training methods performed chest compression on dental chair for female dental hygienist students**
REIRA MINAMI
Fukuoka College of Health Sciences
- P1-8-06 Difference between assumed value and measured value of opening amount**
KEN TATENO
Department of Anesthesiology Saitama Medical University Hospital
- P1-9-01 Comparison of Polyurethane Foam versus Vaseline for Prevention of Nasal Pressure Injury Associated with Fixation of Nasotracheal Intubation Tube**
HIROYO YOSHIMOTO
Division of Dental Anesthesiology, Department of Human Biology and Pathophysiology, School of Dentistry, Health Sciences University of Hokkaido, Hokkaido, Japan
- P1-9-02 A placement of the tip of Parker™ tube in naso tracheal intubation for pediatric patients**
KEIICHIRO WAKAMATSU
Department of Dental Anesthesiology, Ohu University, School of Dentistry
- P1-9-03 Identification of physiological indicators for real-time stress estimation during dental treatment**
TAKASHI SAKAMOTO
Department of Special Needs Dentistry, Graduate School of Dentistry, Osaka University
- P1-9-04 Results of a survey on the clinical status of sedation in university dental schools or dental school hospitals**
KENJI SEO
Medical Safety Committee of JDSA
- P1-9-05 Response to Cardiac Arrest Patients during Dental Treatments (Efforts to improve dental safety)**
TAKASHI HITOSUGI
Department of Anesthesiology, Nihon University School of Dentistry
- P1-9-06 Relationship between spark caused by cutting metal and oxygen concentration**
KOJI TAKAHASHI
Ohu University

- P1-10-01 Anesthetic management for dental care in a patient with Rett syndrome**
HITOMI TERASAKI
Department of Perioperative Dental Care
- P1-10-02 General Anesthesia for a Disabled Child with Medical History of Rhabdomyolysis**
FUMI OKAMOTO
Department of Dental Anesthesiology, School of Dental Medicine, Tsurumi University
- P1-10-03 General Anesthesia using Submental Intubation for the Surgery of Myoepithelioma of the hard plate**
HIROKO HARIGAYA
Tsurumi University School of Dental Medicine
- P1-10-04 Anesthetic management for jaw deformity surgery in a patient with posterior pharyngeal flap**
TATSUKI HOSHINO
Tokyo Dental College Ichikawa General Hospital
- P1-10-05 A case of anesthetic management using remimazolam for mandibular fracture in a patient with low cardiac function due to chemotherapy for breast cancer**
MAI SHIONOYA
Tokyo Dental College Ichikawa General Hospital
- P1-10-06 A case of general anesthetic management for a patient with a history of illicit drug use**
ERIKA HARADA
Aichi Gakuin University Department of Anesthesiology School of Dentistry
- P1-11-01 Experience with general anaesthesia in a case of Brugada-type cardioplegia with early repolarisation**
DAIRI IWAI
Dental Anesthesiology, Kanagawa Dental University Hospital
- P1-11-02 A case of dental treatment under general anesthesia preceding cardiac surgery in a mentally retarded patient with pulmonary regurgitation**
HARUKA MAWATARI
Department of Dental Anesthesiology, Nagasaki University Hospital, Nagasaki, Japan
- P1-11-03 Surgery Canceled Due to Suspected Breast Tumor Found After Anesthesia Induction**
SAKI SUGATA
Tokyo Dental College
- P1-11-04 A patient who showed an abnormal shadow of the mediastinum on a preoperative chest X-ray**
HIKARU SATO
Ohu University

- P1-11-05 A case report of intraoperative awareness during general anesthesia maintained with remimazolam besylate**
 RYOUICHI TAKIMOTO
 Division of Dental Anesthesiology, Department of Diagnostic and Therapeutic Sciences, Meikai University School of Dentistry
- P1-11-06 Experience of dental treatment under general anesthesia for a child with Moebius syndrome**
 RINA SATO
 Gunma Children's Medical Center
- P1-12-01 Experience of general anesthesia in a patient with preoperative medication-induced hyperkalemia**
 ERI TOMARI
 Department of Dental Anesthesiology, Field of Oral and Maxillofacial Rehabilitation, Graduate School of Medical and Dental Sciences, Kagoshima University
- P1-12-02 General anesthesia in a patient with masticatory muscle tendon aponeurosis hyperplasia**
 KOTARO SHIMIZU
 Tokyo Dental College Ichikawa General Hospital
- P1-12-03 Use of Virtual Reality Goggles and Tablet Devices in Pediatric Anesthesia Induction : A Report of Three Cases**
 SHIORI TOMIYAMA
 Department of Anesthesiology School of Dentistry Aichi Gakuin University
- P1-12-04 Anesthetic management of Total Temporomandibular Joint Replacement for a patient with rheumatoid arthritis**
 SHIORI SASAKI
 Oral Anesthesia and Pain Management, Tohoku University Hospital
- P1-12-05 A case of general anesthesia for neonatal epulis resection**
 HIROKO KANEMARU
 Oral Management Clinic for Medical Cooperation, Niigata University Medical and Dental Hospital
- P1-13-01 General Anesthesia in a Patient with Posterior Atlantoaxial Fixation due to Rheumatoid Arthritis**
 YUIKA MIHARA
 Department of Anesthesiology, Nihon University School of Dentistry at Matsudo, Chiba, Japan
- P1-13-02 A case of general anesthesia management in a child with laryngomalacia associated with 5p deletion syndrome**
 KAISEI SAITOH
 Division of Dental Anesthesiology, Department of Human Biology and Pathophysiology, School of Dentistry, Health Sciences University of Hokkaido, Hokkaido, Japan

- P1-13-03 A case of intubation tube bending in the nasal cavity during nasal intubation in a patient with a history of cleft lip and palate**
HIDEAKI SEKI
Department of Anesthesiology, Nihon University School of Dentistry
- P1-13-04 Reduction case of autologous blood patch under intravenous anesthesia**
HIROKI SON
Department of Dental Seisyuukai Clinic
- P1-13-05 Monitoring Autonomic Responses with the High-Frequency Variability Index During Intravenous Sedation : A Single-Case Comparison of Sedatives**
YUKIE NITTA
Department of Dental Anesthesiology, Faculty of Dental Medicine and Graduate School of Dental Medicine, Hokkaido University
- P1-13-06 Usefulness of the Rapid Response System for management of atrial fibrillation during intravenous sedation : A case report**
YOSHIKI MIYAKAWA
Division of Dental Anesthesiology, Faculty of Dentistry & Graduate School of Medical and Dental Sciences, Niigata University
- P2-1-01 Paroxysmal Atrial Fibrillation During IV Sedation Led to Diagnosis of Graves' Disease : A Case Report**
SHIORI TAYAMA
Tokyo Dental College
- P2-1-02 A case of post hyperventilation apnea after sedation in a patient with dissociative disorders**
KEITA KAGAWA
Department of Dental Anesthesiology, Kanagawa Dental University
- P2-1-03 Ethical Aspects of Informed Consent in Anesthesia : Unexpected appearance of another personality in the patient during intravenous sedation**
MIE KAJIWARA
Department of Anesthesiology, Nihon University School of Dentistry
- P2-1-04 Maxillary implant surgery under intravenous sedation with ultrasound guided maxillary and selective glossopharyngeal nerve blocks**
KEISUKE NAKAMURA
Department of Perioperative Medicine Division of Anesthesiology, Showa Medical University School of Dentistry
- P2-1-05 A case involving the effective application of combined ultrasound-guided inferior alveolar nerve block (IANB) under intravenous sedation**
ERIKA YAMAHARA
Department of Dental Anesthesiology, Institute of Science Tokyo Hospital

- P2-1-06 Myofascial pain syndrome after refractory local anesthesia with IV sedation**
 SERIKA IMAMURA
 Department of Dental Anesthesiology, Graduate School of Biomedical and Health Sciences, Hiroshima University, Hiroshima, Japan
- P2-2-01 A Case Report : Treatment of N₂O for Postoperative Lingual Nerve Neuropathic Pain**
 MISAKI FUJIMOTO
 Department of Dental Anesthesiology, Division of Anesthesiology, Kanagawa Dental University
- P2-2-02 A case of a patient who visited a pain clinic complaining of numbness after tooth extraction and was found to have chronic myofascial pain during follow-up**
 HISANOBU KAMIO
 Department of Dental Anesthesiology, Division of Oral and Maxillofacial Surgery and Oral Medicine, Hiroshima University Hospital
- P2-2-03 A case of trigeminal neuralgia in which control was improved by therapeutic intervention for myofascial pain**
 HISANOBU KAMIO
 Department of Dental Anesthesiology, Division of Oral and Maxillofacial Surgery and Oral Medicine, Hiroshima University Hospital
- P2-2-04 A case of Orofacial Pain with multiple pathological conditions that were difficult to diagnose and treat**
 YUKI KUNIOKU
 Division of Special Needs Dentistry and Orofacial Pain, Department of Oral Health and Clinical Science, Tokyo Dental College
- P2-2-05 A case of temporomandibular joint disorder treated as idiopathic trigeminal neuralgia**
 HARUKA YANAGIMACHI
 Division of Dental Anesthesiology, Department of Reconstructive Oral and Maxillofacial Surgery, School of Medicine, Iwate Medical University
- P2-2-06 A case of trigeminal neuralgia in a young patient who had difficulty with diagnosis and treatment**
 YUTAKA TANAKA
 Department of Dental Anesthesiology, Niigata University Medical and Dental Hospital
- P2-3-01 General anesthesia in a Myotonic Dystrophy patient diagnosed preoperatively by characteristic facial features**
 KAHOU SAITO
 Yokohama Rosai Hospital Department of Anesthesiology
- P2-3-02 Perioperative anesthetic management of a morbidly obese patient (BMI 48.9) with autism spectrum disorder and mental retardation**
 YU OZAKI
 Department of Dental Anesthesiology, Nagasaki University Hospital

- P2-3-03 Paroxysmal Supraventricular Tachycardia after Maxillofacial Surgery undergoing Radiofrequency Ablation : A Case Report**
NOBUKI NAGAI
Itoh Dent-Maxillofacial Hospital
- P2-3-04 A case of contemplative restorative fixation of a mandibular fracture in a 15-week pregnant woman under general anesthesia**
HONOKA ISHIHARA
Department of Dental Anesthesiology, Faculty of Dental Medicine and Graduate School of Dental Medicine, Hokkaido University
- P2-3-05 A case of a Rett syndrome who developed aspiration pneumonia after general anesthesia was treated immediately through multidisciplinary collaboration**
YOKO ABE
Department of Anesthesiology, Yokohama Clinic, Kanagawa Dental University, Kanagawa, Japan
- P2-3-06 Experience in the perioperative management of patients with familial supraaortic aortic stenosis with severe mitral regurgitation**
HIKARU NACHI
Asahi University Hospital
- P2-4-01 A Case of Recurrent Pneumothorax on Postoperative Day 4 Following Orthognathic Surgery in a Patient with a History of Pneumothorax**
YI-HSUN YANG
Department of Anesthesiology, Yokohama Clinic, Kanagawa Dental University
- P2-4-02 Management of General Anesthesia for Dental Treatment under BIS Monitoring in a child with Lissencephaly : a case report**
SAKI KIUCHI
Department of Perioperative Medicine, Division of Anesthesiology, Showa Medical University, School of Dentistry
- P2-4-03 A case report : Perioperative management of photoimmunotherapy for the advanced tongue cancer patient using narcotics**
HIROYUKI INOUE
Department of Anesthesiology, Tokyo Dental College, Ichikawa General Hospital
- P2-4-04 A Case of General Anesthesia for a Patient with Hyperplasia of coronoid process and Trismus**
SAYAKA YAMAOKA
The Nippon Dental University Hospital Department of Dental Anesthesia
- P2-4-05 Anesthetic Management for Cheiloplasty in Two Pediatric Patients with Alobar Holoprosencephaly**
EMI FUJIOKA
Department of Dental Anesthesiology, Osaka University Graduate School of Dentistry

- P2-4-06 Perioperative management for a patient with multiple myeloma complicated by severe renal dysfunction and severe anemia undergoing sequestrectomy**
MARI NISHIMURA
Department of Anesthesiology, Osaka Dental University
- P2-5-01 A Case of Perceptual Disturbance Resolution Following the Removal of a Lateral Periodontal Cyst**
KENSHIROU HAMADA
Nihon University School of Dentistry at Matsudo
- P2-5-02 General Anesthesia Management in a Pediatric Patient with Sick Sinus Syndrome**
EMI SAWADA
Division of Dental Anesthesiology, Graduate School of Medicine and Dental Sciences, Niigata University, Niigata, Japan
- P2-5-03 A Case of Upper Airway Obstruction Following Genioplasty Requiring Emergency Hemostasis and Intensive Care Management**
TOMOAKI UJITA
Division of Dental Anesthesiology, Niigata University Hospital
- P2-5-04 Bronchoscope guided nasotracheal intubation under ventilation with a Mapleson breathing circuit in an infant patient with congenital ranula**
NORIYA HIROSE
Department of Anesthesiology, Nihon University School of Medicine
- P2-5-05 A case of tracheal tube injury during maxillary osteotomy requiring reintubation**
KENTO YOSHIDA
Osaka Dental University Department of Dental Anesthesiology
- P2-5-06 Case of ventilation difficulty caused by intraoperative position change and tracheal physiological curvature**
TAKASHI TAMANOI
Iwate Prefectural Iwai Hospital
- P2-6-01 A Case of Hospitalization After Gait Disturbance Following Rhythm and Rate Control for Asymptomatic Paroxysmal Atrial Fibrillation Under IV Anesthesia**
KONOSUKE SUGAYA
Nihon University School of Dentistry, Department of Dental Anesthesiology
- P2-6-02 A Case of Insertion Failure Due to Insufficient Curvature of the Parker Tube, Replaced by an RAE Tube**
YUJIRO FURUSE
Arie Furuse Dental Oral Surgery Clinic
- P2-6-03 HFVI guided-remifentanil adjustment might enhance stability of vital sign**
MAKO DOMI
Department of Oral Surgery, Sapporo Medical University School of Medicine, Sapporo, Japan

- P2-6-04 Clinical Experience with the Use of Transnasal Humidified Rapid-Insufflation Ventilatory Exchange (Optiflow THRIVE™) in Nasal Intubation**
MAKO HASHIMOTO
Kyusyu Dental University Division of Dental Anesthesiology and Pain Management
- P2-6-05 The Experience of the Transnasal High-Flow Oxygen Delivery System Optiflow THRIVE™ During Induction of General Anesthesia with a Bronchofiberscope**
YURI HASE
Dental Anesthesiology, Department of Oral Pathobiological Science, Faculty of Dental Medicine, Hokkaido University
- P2-6-06 Experience with the Optiflow THRIVE™ (with F&P950) nasal high-flow oxygen delivery system for intravenous sedation of obese patients**
TAKAHITO TESHIROGI
Department of Dental Anesthesiology, Faculty of Dental Medicine and Graduate School of Dental Medicine, Hokkaido University
- P2-7-01 A Case of Anaphylactic Shock with Discordant Results Between Basophil Activation Test and Intradermal Test**
MIO KANAI
Tokyo Dental College
- P2-7-02 Respiratory Failure After Tongue Cancer Surgery in a Patient with HFpEF**
SAYA SATO
Department of Anesthesiology, Kurume University School of Medicine
- P2-7-03 A case of delayed traumatic hemopneumothorax during general anesthesia in a patient with mandibular fracture**
YUKIKO NISHIOKA
Department of Dental Anesthesiology, Okayama University Hospital
- P2-7-04 A case of convulsive syncope induced by vasovagal reflex**
HORIMOTO SUSUMU
Shounan Oral Surgery Clinic
- P2-7-05 A Case of Anaphylactic Shock Due to Rocuronium During Induction of General Anesthesia**
MADOKA TSUMURA
Department of Anesthesiology, Nihon University School of Dentistry
- P2-7-06 A case of asymptomatic pneumothorax identified after orthognathic surgery**
YUTARO HIGASHI
Tohoku University Department of Oral and Maxillofacial Surgery
- P2-8-01 A case of unexpected suturing of a tracheal tube in orthognathic surgery**
MIE KAJIWARA
Department of Anesthesiology, Nihon University School of Dentistry

- P2-8-02** (Withdraw)
- P2-8-03** **Two cases of skin damage caused by BIS monitor electrodes after procedures under general anesthesia**
ERI FUKUDA
Nihon University School of Dentistry at Matsudo, Department of Anesthesiology
- P2-8-04** **A case of hyperventilation syndrome with difficulty in differentiating it from local anesthetic intoxication**
MIYUKI NAKANAO
Kusunoki Hospital, Department of Dental and Oral Surgery
- P2-8-05** **A case of tonic-clonic seizure on awakening after extraction of wisdom tooth under general anesthesia**
MIHO HYODO
Department of Oral & Maxillofacial Oncology and Surgery, Graduate School of Dentistry, The University of Osaka, Osaka, Japan
- P2-8-06** **Experience in perioperative management of iron-deficiency anemia with pagophagia**
MARI OHNAKA
Department of Dental Anesthesiology, Kanagawa Dental University
- P2-9-01** **Anesthetic management of a case of Mowat-Wilson syndrome**
NATSUMI AKIYAMA
Clinics of Dentistry for the Disabled, Tohoku University Hospital
- P2-9-02** **General Anesthesia for Dental Treatment in a Patient with Megaconial muscular dystrophy due to choline kinase beta deficiency**
TOSHIHIRO WATANABE
Rakuwakai Otowa Hospital
- P2-9-03** **Anesthetic Management Using Remimazolam in a Pediatric Patient with Kabuki Syndrome and Hypoplastic Left Heart syndrome**
RIE NISHIHARA
Showa Medical University School of Dentistry, Department of Perioperative Medicine, Division of Anesthesiology
- P2-9-04** **Experience of whole body management for a patient with food-dependent exercise anaphylaxis undergoing oral surgery**
HITOMI MATUI
Tokushima University Hospital General Dentistry Department
- P2-9-05** **A Case of Mandibular Deformity with Multiple Sclerosis Managed with General Anesthesia and Ultrasound-Guided Trigeminal Nerve Block**
ASAMI ISHII
Department of Dental Anesthesiology, Graduate School of Medical and Dental Sciences, Sciences Tokyo

- P2-9-06 A Case Report on Perioperative Management of Congenital Adrenal Hyperplasia in Oral Surgery**
SOSHI FUJITA
Department of Dental Anesthesiology, Tokushima University Hospital
- P2-10-01 A case of general anesthesia management for dental treatment in a patient with alternating hemiplegia of childhood**
YOHEI NISHIDA
Department of Dental Anesthesiology, Matsumoto Dental University
- P2-10-02 Experience in general anesthesia management of wisdom tooth extractions in patients with Peritzeus-Merzbacher disease**
YUTA KOGA
Nihon University School of Dentistry at Matsudo, Department of Anesthesiology
- P2-10-03 A case of general anesthesia for a patient with 1q trisomy who presented hypoglycemic symptoms just before surgery**
